

# How To: Use Bypass

MyChild provides a ByPass that allows you to take a patient out of a protected area without setting off alarms. You must select a departing unit and a destination unit. These can be the same. The patient status changes from “Active” to “Bypass” when a patient is in ByPass.

Enter a reason for the Bypass and a time limit.

Patient Bypass

Departing Unit: Labor and Delivery

Destination Unit: Mother / Baby

Time Required (in minutes): 5

Reason for Bypass: Moving

Transporter Name: All Smith (Optional)

Transporter Phone: (248) 555-9999 (Optional)

Put Patient In Bypass

Destination unit may be the same as the departing unit OR a different protected unit.

Enter in the time you will be out of protected units.

Bypass Mode starts when the tag passes a bypass-designated door in the departing unit. Bypass Mode ends when the tag in bypass passes through a designated door in the destination unit.

Once the information is complete, click the "Put Patient In Bypass" button. This will change the patient status to Bypass. You will also see this change on the dashboard under the Patient Summary.

A level one notification will appear on the upper right corner of the screen telling you the Bypass has started once the patient leaves through the first bypass designed door.

Level 2  
Level 1

Click "View Alarm" to view any Level 1 Alarm on the map.

This alarm indicates the patient has gone through the first door and the countdown has begun.

When the time allotted for the bypass is almost expired, a “BYPASS EXPIRING” alarm is triggered.

### LABOR AND DELIVERY

McRoberts HOSPITAL

#### BYPASS EXPIRING

170 secs left

**Patient Name:** Davis, Brad  
**Tag Number:** B2DE55  
**Location Start:** Labor and Delivery  
**Location End:** Labor and Delivery  
**Transporter name:** Nurse Jackie  
**Transporter phone #:** 800-555-1234  
**Time of Alarm:** 05/03/2022 17:58:06

Accept Edit Bypass

Click “Accept” to clear the alarm from the screen. The timer will continue to run out until the bypass expires or is complete.

Click “Edit Bypass” to add more time to the bypass or edit the bypass details.

When the timer reaches zero, a “BYPASS EXPIRED” alarm is triggered. All bypass alarms (except BYPASS COMPLETE) allow you to edit the bypass. Changes can also be made on the patient card.

First, click the "Accept" button, then enter a message and click the green arrow to accept the alarm. The Bypass Expired alarm only happens if the time limit has run out and the patient has not passed through the second bypass designated door. If the patient arrives on time, you will receive a Bypass Complete alarm. This will show up in the upper right corner as a notification as it is a level one alarm. Click on the notification to view the alarm detail.

## LABOR AND DELIVERY

Labor and Delivery

## BYPASS COMPLETE

**Patient Name:** Davis, Brad  
**Tag Number:** B2DE55  
**Location Start:** Labor and Delivery  
**Location End:** Labor and Delivery  
**Transporter name:** Nurse Jackie  
**Transporter phone #:** 800-555-1234  
**Time of Alarm:** 05/03/2022 17:44:29

When you complete a bypass by clicking “Complete,” you are acknowledging that the patient has arrived at the destination unit. The patient status will return to "Active".
